

COVID-19 Update

It is our mission every day to support the health and well-being of our patients - especially during a global pandemic.

CareATC has established a COVID-19 Resource Center:

careatc.com/covid-19

which includes the latest on CareATC's responses to the health crisis, links to authoritative websites, frequently asked questions/answers, and more.

At this time, CareATC does not test for COVID-19.

We have established the ability to manage the care of those potentially exposed to the coronavirus or who have similar symptoms.

If you believe you have been exposed to or have symptoms associated with COVID-19, contact our Patient Access Center at

800.993.8244

to schedule a virtual appointment.

All walk-in appointments have been suspended until further notice.

Take steps to protect yourself:

- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not readily available, use hand sanitizer that contains at least 60% alcohol.
- Avoid touching your eyes, nose and mouth.
- Practice social distancing.
- Limit groups and gatherings to 10 or less.
- Cover your mouth/nose when you cough or sneeze.
- Stay home if you're sick.
- Clean and disinfect frequently touched surfaces.
